

North Baltimore/Wood County Educational Service Center
Preschool Pre-Registration

The Wood County Preschool, operated in collaboration with the Wood County Educational Service Center, is now conducting pre-registration for the 2017/18 school year. The preschool programs are developmentally appropriate, play-based preschools supporting the Ohio Department of Education's model curriculum.

The Wood County Preschool Program is an inclusionary preschool program serving children who have delays in development and children who are typically developing. Tuition, based on a sliding-fee scale, is charged for children without special needs. Children attend preschool four days per week (Tuesday - Friday) during either a morning or afternoon session.

Pre-registration forms are now available for toilet-trained, typically developing children. You may obtain pre-registration forms at the elementary school and the local library, or by contacting Naomi Stickles at the Wood County Educational Service Center at 419-354-9010, ext. 133. Parents who have questions regarding children who may have special needs can also contact the Educational Service Center.
